

Early Help Offer

The Early Help Offer is an approach, rather than a service. It respects every family's right to access information to help manage their own lives successfully, whilst guiding them to seek support from appropriate sources. Help can then be agreed as soon as concerns start to emerge. The 'Offer' is for all children, as issues may arise at any point in a child or young person's life. It includes both universal and targeted /specialist services, to reduce or prevent concerns from growing or becoming entrenched. All our Early Help is offered in partnership with parents and carers.

Providing early help to our children and families at St Stephen's CofE First School means we are more effective in promoting support as soon as we can. Early help means providing support as soon as a problem emerges, at any point in a child's life, beginning with the early years. We endeavour to create a school ethos that promotes trust between all adults and children, so that all children know who they are able to talk to if they have any concerns or worries.

Within school we provide the following early help support for all children, striving to ensure concerns, no matter how small, are listened to and supported effectively:

Worcestershire Early Help Services	To address specific concerns within a number of key areas: mental health, domestic abuse, drug or alcohol dependency, your child starting school, a struggling lone parent, debt problems and housing problems.
